# MAGNETO

## origin

Starting from school, assigned to do a task, us developers took this task next level allowing us to hook up on this idea. Very proud, I still find myself stuck in sticky situations that the gum wont let go of me. All 4 of us were destined to get this client working, and soon release new game features such as ROBLOX. We were designing and designing until we had enough, but we're still designing...

# Prime Competitors

**Risen client**  
**Badlion Client**  
**Lunar client**  
**Feather client**
